State Emergency Management Committee

STATE SUPPORT PLAN

Animal Welfare in Emergencies (Interim)

Note: This document contains information relating to the arrangements for animal welfare during emergencies. It must be read in conjunction with the *State Emergency Management Plan*, which contains the generic emergency management arrangements.

Responsible Agency: Department of Primary Industries and Regional Development

Approved by: State Emergency Management Committee

Resolution Number: 08/2019

Version Number: Interim

Date of approval: 08 March 2019

Date of effect: 13 March 2019

Review date: November 2019

1 INTRODUCTION

In 2013, the National Advisory Committee for Animals in Emergencies was established to progress a collaborative and proactive approach to integrating animals into disaster management. Subsequently, the committee produced the *National Planning Principles for Animals in Disasters*.

In 2015, the Government of the day endorsed the integration of the national planning principles into the Western Australian emergency management arrangements and charged the State Emergency Management Committee (SEMC) with their implementation.

In 2018, the SEMC formally assigned the role and responsibility for coordinating animal welfare in emergencies to the Department of Primary Industries and Regional Development (DPIRD).

The *State Support Plan - Animal Welfare in Emergencies* (this Plan) has been prepared by DPIRD in collaboration with the SEMC, relevant hazard management agencies (HMAs) and controlling agencies and the Animals In Emergencies Working Group under the sponsorship of the SEMC – Response Capability Subcommittee.

It is important to note that the owner or person responsible for caring for an animal (the carer) is responsible for the welfare of that animal.

It is acknowledged that the owner or carer's ability to address animal welfare issues may be hampered or prevented due to the nature of the emergency. In such cases, local arrangements may assist. If local arrangements do not exist,

are inadequate or have been exhausted, the controlling agency or HMA may determine the need to access the arrangements under this Plan.

1.1 AUTHORITY TO PLAN

This Plan has been prepared by DPIRD in line with *State Emergency Management Policy* ([State EM Policy](#)) statement 1.5.6 and section 5.9.7.

1.2 PURPOSE

The purpose of this Plan is to document the State of Western Australia's strategic arrangements for the coordination of animal welfare services during emergencies for hazards listed in the *Emergency Management Act 2005* (EM Act) or prescribed within the *Emergency Management Regulations 2006*.

The objectives of this Plan are to:

- define roles and responsibilities for the provision of animal welfare services in relation to the prevention of, preparation for, response to, and recovery from emergencies for all hazards; and
- provide a framework for the coordination between government agencies, non-government agencies, industry, the community and owners of animals.

1.3 SCOPE

This Plan covers the arrangements for animal welfare in emergencies within the geographical boundaries of Western Australia. It is applicable to all hazards except animal and plant

biosecurity – these arrangements are detailed within *State Hazard Plan – Animal and Plant Biosecurity*.

1.3.1 Definition of Emergency

This Plan applies to emergencies as defined in section 3 of the EM Act, that being:

“the occurrence or imminent occurrence of a hazard which is of such a nature or magnitude that it requires a significant and coordinated response”.

Should an incident meet the definition of an emergency in line with section 5.3 of the State EM Policy, this Plan is available as part of the State Emergency Management framework. The HMA, in consultation with the controlling agency, will contact DPIRD to access these arrangements, as detailed in section 3.1 of this Plan.

1.3.2 Classification of Animals

The *Animal Welfare Act 2002* (AW Act) defines an animal as:

- (a) a live vertebrate; or
- (b) a live invertebrate of a prescribed kind, other than a human or a fish.

For the purposes of this Plan, animals have been classified into the following five categories, which are defined in Appendix B - Glossary:

- livestock;
- horses;
- companion animals;
- animals in Perth Zoo or wildlife parks; and
- wildlife

1.4 ROLES AND RESPONSIBILITIES

The owner or carer of an animal is responsible for the welfare of that animal and should include consideration of its welfare in preparedness for, response to and recovery from an emergency.

As prescribed in section 5.9.7 of the State EM Policy, DPIRD has the role and responsibility for coordinating animal welfare services in emergencies.

In an emergency, when the capability of the owner or carer and any local arrangements are no longer sufficient or effective then:

- DPIRD is responsible for coordinating the provision of animal welfare services to support the owner or carer or local arrangements for the animal categories of livestock, horses and companion animals.
- The Department of Biodiversity Conservations and Attractions (DBCA) is responsible for coordinating the provision of animal welfare services to animals in Perth Zoo and advising the owner or carer of wildlife and wildlife parks. Prior to being taken into care or under control or supervision, there is no owner or carer for wildlife.

It is recommended that each agency with a role or responsibility under this Plan has appropriate operational procedures detailing their response arrangements in accordance with this Plan. These arrangements should be complementary to the agency’s operational procedures detailing their roles and responsibilities under the *State Emergency Management Plan* (State EM Plan).

1.5 GUIDING PRINCIPLES

This Plan aligns with the following guiding principles, as described in Appendix B of the [State EM Policy](#):

- risk management approach;
- shared responsibility for resilience;
- all-hazards approach;
- graduated approach;
- all-agencies coordinated and integrated approach;
- continuous improvement;
- community engagement; and
- integrated information management.

This Plan also incorporates the [National Planning Principles for Animals in Disasters](#)¹, which are as follows:

- explicitly recognise that integrating animals into emergency management plans will improve animal welfare outcomes;
- explicitly recognise that integration of animals into emergency management plans will help secure improved human welfare and safety during disasters;
- aim to clearly identify roles and responsibilities within command and control structures in sufficient detail to allow for effective implementation of animal welfare measures;
- recognise the wide range of parties involved in animal welfare at each stage of the disaster cycle and ensure

these organisations are consulted during writing or reviewing disaster plans;

- respect the role of local government as ‘first responders’ in disasters and acknowledge local government expertise in understanding local needs and resource availability, especially with reference to animal welfare and animal management arrangements within the local area;
- consider how best to ensure effective integration and implementation of the plan by, for example, extensive consultation during the planning process or inclusion of an animal welfare element in requirements for disaster training exercises;
- include effective communication about plan implementation with those parties who may be involved as well as those who may be impacted by disasters; and
- be communicated in language that is accessible to all stakeholders including the general public.

1.6 RELATED DOCUMENTS AND LEGISLATION

This Plan is to be read in conjunction with the following documents:

- *Emergency Management Act 2005* (EM Act);
- *Emergency Management Regulations 2006*;
- *State Emergency Management Policy* (State EM Policy);
- *State Emergency Management Plan* (State EM Plan);
- Relevant State Hazard Plans;
- Relevant State Support Plans;
- State Emergency Management Procedures;
- State Emergency Management Guidelines;

¹ National Advisory Committee for Animals in Emergencies (2014) *National Planning Principles for Animals in Disasters*. AAWS and World Animal Protection.

- 
- *State Emergency Management Glossary* (State EM Glossary); and
 - Department of Biodiversity, Conservation and Attractions *Oiled Wildlife Response Plan*.

The primary animal welfare legislation in Western Australia is the *Animal Welfare Act 2002* (AW Act).

1.7 EXERCISE AND REVIEW PERIODS

DPIRD is responsible for exercising this Plan within six months of approval. An initial review of this Plan is to occur within nine months of approval to ensure the arrangements have comprehensively documented the state-level coordination of animal welfare services during emergencies.

Subsequent comprehensive reviews must be conducted a minimum of every five years, in accordance with [State EM Policy](#) section 1.5.

2 PREPAREDNESS

2.1 RESPONSIBILITY FOR PREPAREDNESS

The owner or carer should ensure they have a reasonable level of preparedness for their animals. Local government emergency risk management planning may identify animal welfare considerations and Local Emergency Management Arrangements (LEMA) may include Animal Welfare Plans to address these.

This Plan addresses preparedness in relation to State coordination of animal welfare in emergencies where the capacity of the owner or carer and the local arrangement are no longer sufficient or effective. As the agency assigned with the role and responsibility for coordinating animal welfare in emergencies, DPIRD is responsible for the strategic oversight of the State's arrangements for animal welfare in emergencies.

2.1.1 Department of Primary Industries and Development

- Coordinate and support the development and implementation of plans, policies and procedures for the coordination of animal welfare in emergencies;
- Chair the Committee for Animal Welfare in Emergencies (CAWE) to address animal welfare considerations in emergencies;
- Promote and support Local Emergency Management Committees (LEMC) and controlling agencies for the inclusion of animal welfare considerations in emergency plans;
- Promote public awareness and community engagement to improve preparedness for animal welfare in emergencies;

- Develop, maintain, and promote effective working relationships with the Emergency Management sector, to include support to the SEMC, District Emergency Management Committees (DEMCs) and LEMCs, where appropriate; and
- Develop and maintain lists of potential DPIRD support personnel available to assist with DPIRD responsibilities under this Plan, as applicable.

2.1.2 Department of Biodiversity, Conservation and Attractions

- Identify considerations relating to wildlife welfare in emergencies;
- Maintain membership on the CAWE to address animal welfare considerations in emergencies;
- Develop and maintain an internal emergency animal welfare operational plan, including the Oiled Wildlife Response Plan; and
- Develop and maintain lists of potential support personnel available to assist with their responsibilities under this Plan, as applicable.

2.1.3 Department of Communities

- Reference animal welfare information in publications and websites to assist broader community awareness, education and understanding.

2.1.4 Local Government

- Consider developing, maintaining and reviewing a local government emergency animal welfare plan; and
- Ensure one or more members of the CAWE are representative of local government.

2.1.5 Committee for Animal Welfare in Emergencies

The Committee for Animal Welfare in Emergencies (CAWE) is established by DPIRD to provide a forum to address the maintenance of this Plan and the underlying arrangements, and to assist in maintaining capacity at a State level. The DPIRD chairs the CAWE.

2.2 KEY PLANNING CONSIDERATIONS

The planning considerations for the owner or carer of an animal should include:

- If it is likely the animal will be evacuated or remain onsite;
- If transportation is adequate and available to relocate the animal, under potential logistical constraints (i.e. road closures, window of safe evacuation);
- If suitable areas and adequate provisions are available for animals left on a property to minimise the risk of harm (i.e. area at lowest risk of hazard impact, sufficient food and water access for prolonged absence);
- If animals, and their owner or carer, can be identified (i.e. companion animal microchipping, National Livestock Identification System); and
- If they are prepared for self-sufficient recovery and for how long.

When planning to support owners or carers in a local or State arrangement, the key considerations should include:

- access to information and resources for persons evacuating with animals;
- availability of transportation support and advice;

- availability of locations to house evacuated animals;
- management of displaced or stray animals;
- assessment of impacted animals;
- treatment of impacted animals;
- humane euthanasia;
- disposal of impacted animals;
- provision of emergency food, water, shelter; and
- recovery arrangements.

These key considerations, in relation to the State coordination of animal welfare in emergencies, are addressed in this Plan.

2.3 COMMUNITY INFORMATION AND EDUCATION

DPIRD maintains publications to assist in community education for animal welfare in emergencies, which are available on the [DPIRD website](#). DPIRD will collaborate with organisations in agreement under this Plan to develop a suite of tools and information to assist in preparing for animal welfare in emergencies.

During periods where there is a very high or extreme likelihood of an emergency occurring, DPIRD will liaise with the relevant controlling agencies or HMAs, and the organisations in agreement under this Plan, to share situational information and promote proactive preparation for animal welfare.

2.4 FUNDING ARRANGEMENTS

Organisations in agreement with this Plan must maintain funding and resources to maintain their capacity and capability outlined in their plans. Some prevention and preparedness funding opportunities are located on the [SEMC website](#).

3 RESPONSE

3.1 PLAN ENGAGEMENT PROCEDURES

Where assuring animal welfare is beyond the capability of the owners or carers, and that of any local or district arrangements implemented by the relevant organisation, then the controlling agency or HMA may determine the need to engage the arrangements under this Plan.

As the first course of action, where an Incident Support Group (ISG), or Operational Area Support Group (OASG), has been established and includes a DPIRD representative, the **Incident Controller may make a request to the DPIRD ISG/OASG representative** to engage the arrangements under this Plan.

Where an ISG, or OASG, has not been established, or no DPIRD ISG/OASG representative is available, then the Incident Controller may call the DPIRD State Support Plan-Animal Welfare in Emergencies Number².

In addition, DPIRD may recommend to the Incident Controller to engage the response arrangements under this Plan.

3.2 RESPONSIBILITY FOR RESPONSE

The Controlling Agency or HMA has the authority to direct when and if, any response actions can be performed as part of the overall response to the emergency. DPIRD will liaise with the Controlling Agency or HMA to coordinate the State animal welfare arrangements when they are required.

² The DPIRD State Support Plan-Animal Welfare in Emergencies Number is for emergencies only (08) 9368 3688

3.2.1 Department of Primary Industries and Regional Development

- Liaise with the relevant controlling agency or HMA as a liaison officer and/or member of the ISG or OASG;
- Coordinates the activation of the DPIRD internal operational plan in line with this Plan;
- Contribute to public information released during the emergency;
- Provide situational reports to the CAWE on animal welfare in the emergency;
- Liaise with the local government and other organisations to coordinate response activities including:
 - providing support and advice on transportation for evacuating animals;
 - identifying the availability of locations to house evacuated animals;
 - managing displaced or stray animals;
 - assisting owners and carers to obtain Restricted Access Permits, where applicable;
 - assessing and triaging impacted animals;
 - identifying/administering treatment;
 - performing/assisting with transportation for humane euthanasia or perform on-site;
 - advising on/arranging for disposal of deceased animals;
 - identifying/providing emergency food/water/shelter; and
 - identifying and reuniting animals with their owners or carers.
- Coordinate arrangements to best utilise volunteers and donations relevant to DPIRD animal categories;

- Coordinate the reporting and future investigation of animal welfare complaints arising as a consequence of the emergency;
- Liaise with and advise local government and other organisations about suitable temporary containment and other welfare needs of animals.

3.2.2 Department of Biodiversity, Conservation and Attractions

- Provide support to DPIRD, as requested;
- Coordinate animal welfare services for animals in Perth Zoo; and
- Liaise with and advise local governments and other organisations and the owner or carer of wildlife and wildlife parks about suitable temporary containment and other welfare needs of wildlife.

3.2.3 Department of Communities

- Where appropriate, provide input to information for the public and media relating to alternative animal housing arrangements;
- If known, advise evacuees presenting at centres of alternative animal housing arrangements;
- Convey information provided by DPIRD relating to animal welfare to people in welfare centres; and
- Liaise with DPIRD in relation to reuniting owners with their animals.

3.2.4 Hazard Management Agencies/Controlling Agencies

- Request access to the arrangements under this Plan by contacting the DPIRD representative on the ISG or

through the DPIRD State Support Plan-Animal Welfare in Emergencies Number³, as required;

- Liaise with DPIRD to integrate animal welfare considerations into the overall response; and
- Liaise with DPIRD to include coordinated animal welfare considerations into the public information plan.

3.2.5 Local Government

- Activate the local government emergency animal welfare plan or contingency arrangements where identified within LEMA; and
- Liaise with DPIRD to provide a coordinated approach to animal welfare response actions, where relevant.

³ The DPIRD State Support Plan-Animal Welfare in Emergencies Number is for emergencies only (08) 9368 3688

3.3 RESPONSE ARRANGEMENTS

3.3.1 Public Warnings/Information

The HMA is responsible for the management of public information during an emergency⁴. DPIRD will provide relevant information to the HMA, which may include:

- information and resources for persons evacuating with animals;
- the state of the general welfare of animals involved in the emergency;
- the location/s of animals;
- the process for owners to find and reunify with their animals; and
- public donations e.g. the location/s for donations or that they are no longer required.

DPIRD may address the public and the media directly in relation to animal welfare, as agreed with the HMA. Matters that are not the direct responsibility of DPIRD are to be referred to the HMA.

3.3.2 Transportation Support and Advice

The owner or carer has the responsibility to determine, where possible, if their animal/s will be evacuated or remain on location and plan for how this will be achieved. In an emergency, DPIRD will liaise with the controlling agency or HMA and the local government to provide information on

⁴ In some situations, there may be an advance agreement between the HMA and the controlling agency for the controlling agency to be in control of the public information function during an emergency. Such arrangements are documented within the relevant state hazard plan (State EM Policy statement 5.6.10).

potential resources and advice on evacuating with animals. This may include:

- road closures, safe alternatives and suitability for traffic;
- early evacuation consideration for those travelling with large animal carriers; and
- transport services or volunteer options.

3.3.3 Locations for Evacuated Animals

Owners and carers should first seek to evacuate their animals to the properties of friends and family outside of the area in which the emergency is taking place.

Local governments and the community **may** have facilities to house evacuated animals. DPIRD will coordinate with these entities to advise the public of locations to house evacuated animals if available.

For health and safety reasons no animals, including pets, are permitted in welfare centres with the exception only of Assistance animals e.g. Guide Dogs, “Hearing” Dogs and Disability Aid Dogs. Some local governments may have facilities to temporarily accommodate animals. LEMAs may identify if animals can be accommodated in the vicinity of welfare centres and if not, what alternate options may be available.

3.3.4 Managing Displaced or Stray Animals

Escaped or released (stray) animals evading a hazard can pose a risk to people, other animals, property or themselves. Stray animals may require containment or impoundment; powers may be available under legislation to achieve this as follows:

- Hazard management officers and authorised officers, appointed by the HMA or State Emergency Coordinator respectively may have powers to move direct or prohibit the movement of animals within, into, out of or around an emergency area for the purpose of emergency management if specified in the instrument of appointment and if an emergency situation or state of emergency is declared (s.67 EM Act);
- A police officer also has the powers to move direct or prohibit the movement of animals within, into, out of or around an emergency area for the purpose of emergency management if an emergency situation or state of emergency is declared (s.71(2) EM Act); and
- Authorised Officers may have powers, during a state of emergency, in relation to the containment and of an animal, if specified in the instrument of appointment (s.75 EM Act).

3.3.5 Access to Non-evacuated Animals

Where animals are not evacuated, timely assessment and the application of treatment, routine care, humane euthanasia and carcass disposal, where applicable, is critical. Access to impacted and restricted areas to undertake assessment and management of animals is at the discretion of the Incident Controller.

Access to impacted areas may not be permitted to the general public for a protracted time. In such circumstances, DPIRD will liaise with the Department of Fire & Emergency Services (DFES) where DFES is the controlling agency or HMA in relation to the issue of Restricted Access Permits to address animal welfare considerations. Restricted Access Permits may

be issued in accordance with the State EM Plan section 5.3.3 Traffic Management during emergencies.

3.3.6 Assessment of Non-evacuated Animals

Where access is permitted to owners or carers, all effort should be made by those persons to undertake the assessment of impacted animals in their charge, and initiate ongoing management.

Where access permits have been coordinated by DPIRD, it will also coordinate the following:

- assessment of impacted animals;
- prioritisation of (triage) the welfare needs of animals; and
- provision of a welfare assessment to assist the controlling agency or HMA to include animal welfare considerations in ongoing response and recovery operations.

3.3.7 Treatment

DPIRD, or DBCA in relation to animals in Perth Zoo, will liaise with local government and other organisations to:

- determine the local veterinary capacity to meet animal treatment needs;
- identify capacity gaps in animal treatment; and
- coordinate actions to address capacity gaps, including:
 - providing additional support for local veterinary practices;
 - directing owners and carers to local veterinary practices;

- liaising with veterinary practices adjoining impacted areas to assist with animal treatment needs;
- facilitating contact with volunteer veterinary surgeons and veterinary nurses; and
- establishing triage sites for assessment and treatment (including euthanasia) of animals.

Where these actions relate to the welfare of wildlife, DBCA will advise the owner or carer of wildlife and wildlife parks.

3.3.8 Humane Euthanasia

Where the owner or carer is unable to arrange humane euthanasia either on-site or by transporting to a suitable premises, and the animal has little or no chance of survival or continues to suffer harm if it remains alive, DPIRD will liaise with the controlling agency or HMA, to facilitate arrangements for humane euthanasia. Where this relates to wildlife or animals in Perth Zoo or wildlife parks, DPIRD will consult with DBCA. Actions may include:

- providing advice on the euthanasia of an animal or animals;
- providing advice on the fitness of an animal for transport;
- identifying suitably trained and equipped personnel to assist;
- identifying suitable resources to assist; and
- coordinating access permits for the purpose of transportation or on-site humane euthanasia.

Wherever possible, humane euthanasia activities will take place in consultation with the owner or carer. Where it is not possible to identify or contact the owner or carer of an animal

and euthanasia is required, the owner or carer should be contacted as soon as is practical afterwards. Western Australia legislation provides the following powers for officers to humanely euthanase an animal:

- An inspector appointed by the chief executive officer of DPIRD under the AW Act may humanely destroy an animal where it is reasonably believed to be suffering so severely that destroying it would be the humane thing to do (s.41 AW Act); and
- During a state of emergency, for the purpose of emergency management, an authorised officer appointed by the State Emergency Coordinator may contain, remove or destroy an animal in the emergency area (s. 75 EM Act).

Methods of euthanasing animals must be humane. Information on the humane euthanasia of sheep and cattle is available on the [DPIRD website](#) under *Assessing cattle after a fire* and *Assessing sheep after a fire*.

Recommended methods for the humane euthanasia of other livestock (including horses) are set out in the [Australian Animal Welfare Standards and Guidelines: Land Transport of Livestock](#).

Methods of euthanasing kangaroos are covered in the National Code of Practice for the Humane Shooting of Kangaroos and Wallabies for Non-commercial Purposes 2008 at <http://www.environment.gov.au/biodiversity/wildlife-trade/publications/national-code-practice-humane-shooting-kangaroos-and-wallabies-non-commercial>.

3.3.9 Disposal

The disposal of animals is the responsibility of the owner or carer, however, DPIRD will coordinate with the controlling agency or HMA and local governments to provide advice on the timely and appropriate disposal of animal carcasses during an emergency. Where this relates to wildlife or animals in Perth Zoo or wildlife parks, DPIRD will consult with DBCA.

Guidance on approved procedures for carcass disposal is available on the DPIRD website under *Livestock Carcass disposal after fire, flood or drought*.

3.3.10 Provision of Emergency Food, Water and Shelter for Animals

Emergencies may affect the supply and quality of water, pastures and other sources of food usually available to animals. This is particularly significant for non-evacuated animals located within the impacted area. During the response phase, DPIRD will coordinate, in liaison with the controlling agency or HMA, the provision of emergency food and water by:

- identifying animals requiring access to food and water as part of the welfare assessment within the impacted area;
- liaising with local organisations to identify evacuated animals requiring access to emergency food and water;
- identifying potential sources of food and water including depots, distribution centres and water; and
- coordinating donations of food and other resources.

The allocation of food and water will aim to meet animals' basic nutritional requirements. In situations where the minimum requirements of an animal are unlikely to be met, consideration should be given to the agistment, temporary rehousing,

rehoming, sale, adoption or humane euthanasia of an impacted animal, where relevant.

Shelter for animals located within the impacted area may also be significantly affected. During the response phase, DPIRD will coordinate, in liaison with the controlling agency or HMA, the provision of emergency shelter.

3.3.11 Reunification of Animals with Owners or Carers

The agency with responsibility for the coordination of a particular category of animals will coordinate with local government for the identification and reunification of displaced or stray animals during or as soon as practicable after an emergency.

If owners or carers are located within welfare centres, DPIRD will liaise with Department of Communities to reunite owners with their animals during or as soon as practicable after an emergency.

3.3.12 Volunteers and Donations

During emergencies, additional resources and services may become available through charity/community groups and may include volunteering and donations of goods. DPIRD, or DBCA for animals in Perth Zoo, will coordinate arrangements to best utilise such resources and services, as required. Where volunteers and donations relate to the welfare of wildlife, DPIRD will consult with DBCA, as required.

All recovery activities in relation to volunteers and donations should be coordinated through the Local Recovery Coordination Group to avoid duplication of efforts (State EM Plan section 6.12).

3.4 FINANCIAL ARRANGEMENTS

Where an agency or organisation included in this Plan provides or assists in providing animal welfare services each agency will meet its own costs unless agreed otherwise prior to the provision of those services. Additional information about funding in emergencies can be found in the [Criteria for meeting costs associated with emergencies guide](#) available on the SEMC website.

The owner or carer is responsible for the costs associated with the welfare of his/her animal. Activities undertaken for the welfare of an animal should wherever possible, take place in consultation with the owner or carer. During an emergency, it may not be possible to identify or contact the owner or carer and an authorised officer may be required to undertake activities for the welfare of animal without prior consultation. Section 56 of the AW Act provides for a person who has incurred costs under certain sections of the Act to apply for the recovery of costs from the owner or carer.

4 RECOVERY

4.1 RESPONSIBILITY FOR RECOVERY

Local government is responsible for managing recovery following an emergency affecting the community in its district under section 36(b) of the EM Act. Many of the activities covered under section 3 of this Plan will continue into the recovery phase of emergency management. During this time, DPIRD will coordinate to return the responsibility for ongoing animal welfare activities back to the local government and the owners and carers of animals.

4.1.1 Department of Primary Industries and Regional Development

- Liaise with relevant agencies to transfer responsibility for ongoing animal welfare activities back to local government and the owner or carer;
- Provide advice to the controlling agency or HMA and local government on animal welfare considerations, as part of the recovery plan;
- Participate in post-emergency debriefs and reviews, as requested; and
- Undertake a review of this Plan's effectiveness in consultation with the CAWE.

4.1.2 Department of Biodiversity, Conservation and Attractions

- Assist DPIRD in providing animal welfare advice for the recovery plan;
- Participate in post-emergency debriefs and reviews, as requested;

- Participate as a member of the CAWE in reviewing this Plan; and
- Review the effectiveness of the DBCA operational plan.

4.1.3 Department of Communities

- Consider animal welfare to the extent possible during the coordination of welfare services

4.1.4 Hazard Management Agencies/Controlling Agencies

- Liaise with DPIRD to include animal welfare consideration into the recovery plan; and
- Include animal welfare in post-emergency debriefs and reviews.

4.1.5 Local Government

- Include animal welfare considerations in any recovery plan;
- Liaise with DPIRD to transition the ongoing animal welfare activities back to the control of local government and the owner or carer;
- Review the effectiveness of any animal welfare plans; and
- Ensure one or more CAWE members representing local government participate in reviewing this Plan.

APPENDIX A: DISTRIBUTION LIST

This *State Support Plan – Animal Welfare in Emergencies* is available on the SEMC website (www.semc.wa.gov.au). The agencies below will be notified by the responsible agency (unless otherwise specified) when an updated version is published on this website:

- All agencies and organisations with responsibilities under this Plan;
- Emergency Management Australia (SEMC Business Unit to notify);
- Minister for Emergency Services (SEMC Business Unit to notify);
- State Emergency Management Committee (SEMC), SEMC subcommittee and SEMC reference group members (SEMC Business Unit to notify); and
- State Library of Western Australia (SEMC Business Unit to notify).

APPENDIX B: GLOSSARY OF TERMS/ACRONYMS

Terminology used throughout this document has the meaning prescribed in section 3 of the EM Act or as defined in the State EM Glossary. In addition, the following definitions apply:

GLOSSARY OF TERMS

Animals in Perth Zoo or Wildlife Parks	All animals kept in Perth Zoo or establishments licensed by the Department of Biodiversity, Conservation and Attractions
Companion Animal	Any animals other than horses kept primarily for companionship, hobbies, sport or work
Controlling Agency	An agency nominated to control the response activities to a specified type of emergency (State EM Glossary)
Emergency	The occurrence or imminent occurrence of a hazard which is of such a nature or magnitude that it requires a significant and coordinated response (s.3 EM Act)

APPENDIX C: RESPONSE ROLES AND RESPONSIBILITIES

The Department of Primary Industries and Regional Development (DPIRD) has the primary role of coordinating the State animal welfare arrangements as required during an emergency. The following are the response roles and responsibilities of agencies under this Plan. Brief all-hazards information is also provided for agencies who may have a role under this Plan—full details of these roles and responsibilities can be found in the *State Emergency Management Plan*, Appendix E.

All agencies should maintain appropriate internal plans and procedures in relation to their specific responsibilities.

Organisation	Response Responsibilities (see State EM Plan Appendix E for full all-hazards roles and responsibilities)
Department of Biodiversity, Conservation and Attractions	<ul style="list-style-type: none"> • Provide support to DPIRD, as requested; • Coordinate animal welfare services for animals in Perth Zoo; and • Liaise with and advise local governments and other organisations and the owner or carer of wildlife and wildlife parks about suitable temporary containment and other welfare needs of wildlife.
Department of Communities	<ul style="list-style-type: none"> • Where appropriate, provide input to information for the public and media relating to alternative animal housing arrangements; • If known, advise evacuees presenting at centres of alternative animal housing arrangements; • Convey information provided by DPIRD relating to animal welfare to people in welfare centres; and • Liaise with DPIRD in relation to reuniting owners with their animals.
Department of Primary Industries and Regional Development	<ul style="list-style-type: none"> • Liaise with the relevant controlling agency or HMA as a liaison officer and/or member of the Incident Support Group (ISG) or Operational Area Support Group (OASG); • Coordinates the activation of the DPIRD internal operational plan in line with this Plan; • Contribute to public information released during the emergency; • Provide situational reports to the CAWE on animal welfare in the emergency; • Liaise with the local government and other organisations to coordinate response activities including: <ul style="list-style-type: none"> ○ identifying the availability of transportation support and advice for evacuating animals;

Organisation	Response Responsibilities (see State EM Plan Appendix E for full all-hazards roles and responsibilities)
	<ul style="list-style-type: none"> ○ identifying the availability of locations to house evacuated animals; ○ managing displaced or stray animals; ○ assisting owners and carers to obtain Restricted Access Permits, where applicable; ○ assessing and triaging impacted animals; ○ identifying/administering treatment; ○ performing/ assisting with transportation for humane euthanasia or perform on-site; ○ advising on/arranging for disposal of deceased animals; ○ identifying/providing emergency food/water/shelter; and ○ identifying and reuniting animals with their owners or carers. <ul style="list-style-type: none"> ● Coordinate arrangements to best utilise volunteers and donations relevant to DPIRD animal categories; ● Coordinate the reporting and future investigation of animal welfare complaints arising as a consequence of the emergency; and ● Liaise with and advise local government and other organisations about suitable temporary containment and other welfare needs of animals.
Hazard Management Agencies/Controlling Agencies	<ul style="list-style-type: none"> ● Request access to the arrangements under this Plan by contacting the DPIRD representative on the ISG or through the DPIRD State Support Plan-Animal Welfare in Emergencies Number⁵, as required. ● Liaise with DPIRD to integrate animal welfare considerations into the overall response; and ● Liaise with DPIRD to include coordinated animal welfare considerations into the public information plan.

⁵ The DPIRD State Support Plan-Animal Welfare in Emergencies Number is for emergencies only (08) 9368 3688

Organisation	Response Responsibilities (see State EM Plan Appendix E for full all-hazards roles and responsibilities)
Local Government	<ul style="list-style-type: none">• Activate the local government emergency animal welfare plan or contingency arrangements where identified within LEMA; and• Liaise with DPIRD to provide a coordinated approach to animal welfare response actions, where relevant.
